SYS 2023 motto: WE RETHINK THE SHOW

8 and 9 June 2023

We will be talking about the state of the live entertainment market in an era of essential change

What can feasibly be 're-started' post pandemic and in which conditions/timelines

What trends the pandemic has provoked and what they mean for the show industry going forward

**SYS 2023 will be the launching pad for
Europe's first and only large-scale Live
Entertainment Creative Forum in 2024!**

LOCATION – BERLIN

The event will take place for the first time in Europe in the city of culture and history; Berlin.

Germany's capital: creative and colourful

- Berlin has a reputation as an international metropolis and leaves no one indifferent if you've ever been immersed in its multicultural environment.
- Berlin is also one of Germany's most creative cities.
- There are 52 concert and opera houses, variety shows, art galleries, exhibitions of classical and modern art, plenty of street artists, a culture of start-ups.
- Despite its attractiveness, Berlin is still an "inexpensive" city.

WE RETHINK THE SHOW

For decades our company has been creating and producing content, providing expert support, training for creatives, organizing, marketing and selling shows on the global market.

Entertainment is our life and we believe that live shows will remain relevant in a world of meta-universes and web 3.0.

We need partners and like-minded people to evolve the market and the rules of the game in the entertainment industry in the years to come.

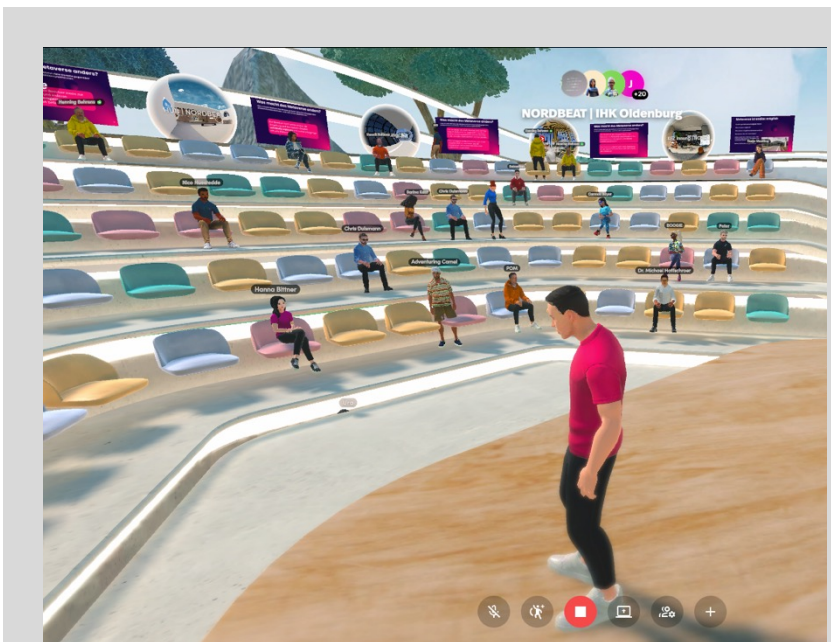

Join the community of professionals to evolve the market and the rules of the game in the entertainment industry – TOGETHER!

Innovative aspects

One world
worldwide working in the metaverse

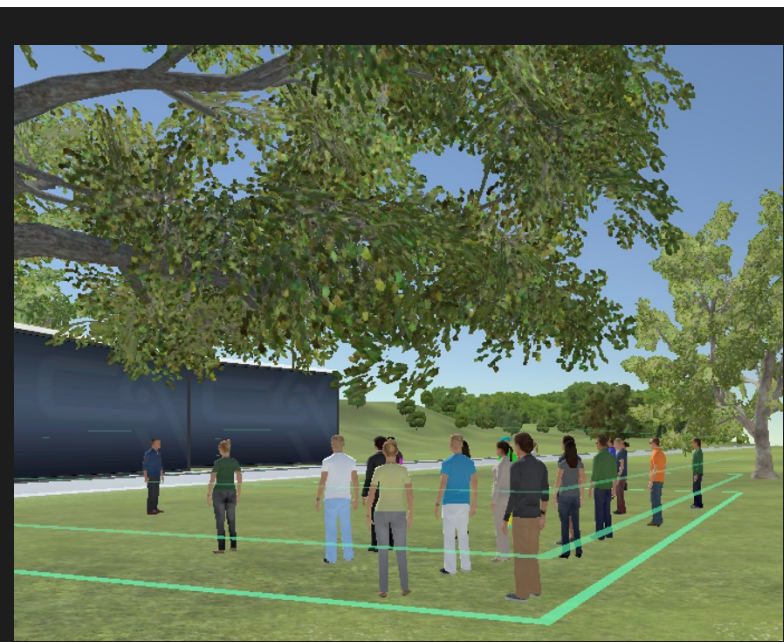

- Participants from all over the world
- Working on different real places in one virtual place

One conference
physical & virtual streams parallel

- Physical and virtual streams working separately with link between areas
- Physical Input-, Keynote- and Impuls - Sessions are streamed in the metaverse

One result
connecting physical and virtual results

- Hybrid Session – physical participants can see the virtual participants and upside down
- The results from the separately virtual and physical streams bring together in a hybrid Session
